

P707 Camino

An elegant post top luminaire with photometric performance of the highest efficiency. Designed in four visual profiles to complement or contrast with a range of modern and period architectural features. The Camino has a simple classic style.

FEATURES

- The body, internal mouldings and bowl are manufactured from high impact resistant UV stabilized injection-moulded Polycarbonate.
- Styled top manufactured from aluminium.
- Reflector with tubular lamps.
- Refractor with elliptical lamp options.
- The control gear is contained within the luminaire and is immediately accessible, as is the lamp on removal of the bowl assembly.
- Bowl assembly fitted with a lockable bayonet fixing.
- Finished in black.
- IP65 sealed lamp and gear compartment.

OPTIONS AND EXTRAS

- Available with a 76mm or 60mm spigot.
- Option of prewiring with suitable length of cable.
- Miniature photocell option.
- Electronic control gear on selected lamps.
- PL-T Compact Fluorescent lamp (CFL) option (Refractor only).
- Choice of RAL colours at extra cost – see inside back cover for details.
- Wall bracket option. 5300P707
